

Trust objective

To provide growth in income and capital to achieve a long-term total return greater than the benchmark FTSE All-Share Index, through investment primarily in UK securities. The Company's policy is to invest in a broad spread of securities with typically the majority of the portfolio selected from the constituents of the FTSE 350 Index.

Performance (total return)

Past performance is not a guide to future performance. The value of investments and the income from them may fall as well as rise and is not guaranteed; an investor may receive back less than the original amount invested. This Trust may not be appropriate for investors who plan to withdraw their money within the short to medium term.

Risk Warnings

This document is for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Before investing in the Company, or any other investment product, you should satisfy yourself as to its suitability and the risks involved, and you may wish to consult a financial adviser.

Any return you receive depends on future market performance and is uncertain. The Company does not seek any protection from future market performance so you could lose some or all of your investment. For information on the principal risks the Company is exposed to please refer to the Company's Annual Report, Key Information Document or Investor Disclosure Document, available at <https://www.templebarinvestments.co.uk/documents/>.

Company share price risk

Shares in the Company are bought and sold on the London Stock Exchange. The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. Usually, at any given time, the price you pay for a share will be higher than the price you could sell it.

Borrowing/leverage risk

The Company has increased its exposure to investments via borrowings and this could potentially magnify any losses or gains made by the Company.

The Company's gearing and discount management policies can be found at <https://www.templebarinvestments.co.uk/investment-approach/investment-policies/>

Interest rate risk

The value of fixed income assets & liabilities (e.g. bonds) tends to decrease when interest rates and/or inflation rises, and increase when interest rates and/or inflation falls.

Concentration risk

The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down, which may adversely impact the performance of the fund.
